Devil's Gate Reservoir Sediment Removal and Management Project Update

LA County Public Works has been actively planning for a more sustainable Devil's Gate Reservoir. Three community Informational Open Houses will be held to share current information on the sediment removal plans, including the recent Interim Measures Project, restoration and flood control capacity maintenance, and the habitat enhancement program that will create and preserve native habitat within and around the reservoir.

Please plan to join us at one of these three Informational Open House locations for an update about this important project.

Tuesday, October 24, 2017

6:00 – 7:30 p.m.

Rose Bowl Stadium

1001 Rose Bowl Drive
